Mr. Mike Sanderson
Air and Waste Compliance Branch
U.S. EPA Region VII
324 East Eleventh Street
Kansas City, Missouri 64106

Dear Mr. Sanderson:

In a phone conversation on July 15, 1983, between Ms. Sandra Carroll of my staff and Mr. David Doyle, it was agreed that the Missouri Department of Natural Resources would initiate enforcement action (consisting of a warning letter and compliance schedule) against Sporlan Valve Company of Washington.

The Sporlan Valve Company's RCRA inspection report revealed one Class I violation, non-manifesting of waste trichloroethylene prior to April, 1983. Other wastes produced by this company are not regulated by EPA. We will keep you informed on any pertinent developments.

If you have any questions, please feel free to contact Ms. Carroll of this office.

Sincerely,

Arthur H. Groner
Chief of Enforcement
Waste Management Program
